## THINGS TO KNOW

The UC Eligibility Tool helps you track your progress toward meeting eligibility for UC by listing required coursework on the far left and comparing it to your completed and enrolled coursework. To ensure you stay on track, use this tool to also plan for future courses that are offered at your school and help satisfy UC requirements.

All of your coursework on the Eligibility Tool will be color-coded with each color representing something different so be sure to study the legend below carefully.

The University of California (UC) Course Management Portal (CMP) is a website where all your "a-g" courses are

California Colleges has a UC/CSU Eligibility tool that allows students to track their progress towards meeting UC/CSU requirements. The GPA does NOT include dual/concurrent enrollment classes as they are not on our UC Course
